Subject **Norwegian ADNS Notification 30/03/20**

Body

Dear

ADNS SUPPORT TEAM

The Norwegian Food Safety Authority confirmed two outbreaks of ISA 27/03/20.

The ISA cases were notified through ADNS 30/03/20. The first notified outbreak got the reference no. 4 and the report was submitted without any problems.

In order to notify the second ISA-case we tried to choose the reference no. five, but it was not possible. To avoid any bugs we logged out from ADNS and thereafter logged in once more. Even with another try with the reference no. five we were not allowed to submit the second notification yesterday.

Please find more information attached.

Thank you in advance for needed support.

Best regards

Magnhild Daltveit
